31 July 2001

Marine Corps Stocklist, SL-3-10691A, TAMCN A25457G is effective upon receipt.

BY DIRECTION OF THE COMMANDANT OF THE MARINE CORPS

OFFICIAL

R.P. SHOCKEY  
Director, Program Support Directorate  
Marine Corps System Command

DISTRIBUTION: PCN 123 106910 00

## PREFACE

### SCOPE

1. This publication lists all components and accessories for collection-type supply items, such as major combinations, systems, groups, outfits, kits, sets or assortments. The components to be issued with the end item are identified under the heading of "SUPPLY SYSTEM RESPONSIBILITY" and when required, under the heading "COLLATERAL MATERIEL." End items requiring collateral materiel are governed by whether the end item is initial or replacement issue. The LIFE CYCLE MANAGEMENT CENTER, ATTN CODE 852, 814 RADFORD BLVD, STE 20320, ALBANY, GA 31704-0320, will direct whether the issue of the end item is with collateral materiel or without collateral materiel. Those items listed under "USING UNIT RESPONSIBILITY" heading are to be requisitioned separately through the supply system when applicable. Using Units are also responsible for requisitioning the required publications to support the end item identified by the ID number shown on the cover of this SL-3. The end item will be complete when the total quantity of items, as applicable, shown in the SL-3 is on hand.

### LIST OF COMPONENTS

2. This listing comprises the major portion of this publication. The data, arranged in columnar form, presents the information needed to identify the item and determine its type of issue.
3. Item Number (Column 1). This column specifies a number assigned to each item as it appears in the list. Numbers are assigned in sequence and are for reference purposes only.
4. Stock Number (Column 2). This column furnishes the National Stock Number (NSN) assigned to the item.
5. Reference Designator/Figure-Key (Column 3). This column contains alphabetical and/or numerical designators for referencing individual components or items to an illustration. The absence of a reference designator indicates there is no illustration for the item.
6. Model (Column 4). This column indicates in alphabetical code the specific application of components, or assemblies when more than one model of the end item is contained in this publication.
7. Item Identification (Column 5). This column provides the item name and description listed under the heading of either "SUPPLY SYSTEM RESPONSIBILITY," "COLLATERAL MATERIEL" or "USING UNIT RESPONSIBILITY." (See paragraphs 10, 11, and 12.)
8. Unit of Measure (Column 6). This column gives the measurement standard of each item. It may or may not be the same as the unit of issue. For example, the unit of issue of a certain wire is coil but only 4 feet are required for the end item. Therefore, the unit of measure shown will not be used for requisitioning purposes. For the proper unit of issue and other required management data, refer to FEDLOGS when requisitioning.
9. Quantity Used in Unit (Column 7). This column lists the total quantity of an item, according to the unit of measure, required for full functional operation of the end item.

### SUPPLY SUPPORT CATEGORIES

10. Supply System Responsibility. A list, in alphabetical sequence, of items that are furnished with and must be turned in with the end item. Any item requiring replacement is the responsibility of the holding organization or using unit.
11. Collateral Materiel. A list, in alphabetical sequence, of items that are supplied with the initial issue of the end item and are retained by the unit. The "9999-00-000-0000" NSN shown under the heading of "COLLATERAL MATERIEL" is for control within the distribution system only, and is not authorized for requisitioning purposes.
12. Using Unit Responsibility. A list, in alphabetical sequence, of items that will not be issued with the end item. They must be requisitioned, as required, through the supply system by the using unit or holding organization.

### 5TH ECHELON REHABILITATION PROGRAM

13. Major items returned under this program will be evacuated under the provision(s) of the applicable Marine Corps Order(s) with the items listed under Supply System Responsibility. Rebuild and replacement under a 5th Echelon rehabilitation program will be

limited to these items only. Those items under the heading "COLLATERAL MATERIEL" and using unit items shall be held by using organizations for application to the replacement end items.

### CHANGES

14. Changes to this publication will be kept current by and issued as Page Inserts and/or Replacement Pages.

### REQUISITIONING OF PUBLICATIONS

15. Publications stocked by the Marine Corps shall be requisitioned as set forth in the current edition of UM-MCPDS 5605, the User's Manual for the Marine Corps Publications and Distribution System. Failure to comply with these instructions may result in return of the requisition or delay in processing.

### PUBLICATIONS FEEDBACK

16. Technical publications play a critical role in achieving system and equipment readiness. Because of this factor, the currency and accuracy of the data published in these documents are essential. Form NAVMC 10772, Recommended Changes to Publications/Logistics-Maintenance Data Coding provides a medium for accelerating information feedback to effect the necessary corrections, changes, and/or revisions, as appropriate. Typographical errors and FSC changes need not be reported. Using units shall requisition Form NAVMC 10772 through the normal Marine Corps supply channel. If this form is not adequate to cover a particular situation or recommendation, a letter should be directed to the LIFE CYCLE MANAGEMENT CENTER, ATTN CODE 852, 814 RADFORD BLVD STE 20320, ALBANY GA 31704-0320.

### MISCELLANEOUS

17. For full information concerning the Marine Corps Stocklist publications, see the current edition of MCO P5215.17, The Marine Corps Technical Publications System.

### INVENTORY SHEET

18. Inventory Sheet is to be used for monthly inspection and may be reproduced locally by the user as required. The user may indicate in the first column the month of the first inventory.

### SPECIAL NOTE

19. Items without NSN assigned should be requisitioned by part number and/or drawing number. When NSNs are assigned, changes to this SL-3 will be published.
20. Units will adhere to following Fielding chart to determine which items they will require.

GENERAL FIELD ARTILLERY COMPUTER SET,  
AN/GYK-47(V)7

EA

## TECHNICAL DATA

## FUNCTIONAL DESCRIPTION:

The transit workstation is designed to contain the CCU-2, LLP, and interconnecting cables. In the operational mode, the workstation will provide a horizontal operating platform/table for the operator. This workstation when fully configured is an Artillery Computer Set, AN/GYK-47(V)7.

## TECHNICAL DESCRIPTION:

Axi Motherboard  
OnBoard SCSI  
1GB RAM (333Mhz, 32bit)  
Serial Port (2 via DB25, Splitter Cable Required)  
Parallel Port (via DB25)  
CPU ULTRA Sparc Ili (333Mhz)  
Integrated 16" Flat Panel Display  
(1280 x 1024 resolution)  
Integrated Keyboard (Sun type 5)  
Mass Storage Devices ((4) half eight bays)  
18GB Ultra Wide SCSI RHDD (2)  
2GB JAZZ drive

32x CD ROM drive  
Communication Devices  
SP-TCIMs (2)  
PCI Cards (6)  
Video  
Audio  
MII LAN Interface  
Cardbus Reader (2)  
PC Accelerator PCI Card  
Power System (110/220 VAC, 50/60hz 22-32 VDC,  
10 minute battery backup)  
Size (10" D x 21" W x 14.5" H)  
Weight (60 lbs)

## PHYSICAL CHARACTERISTICS:

## OPERATIONAL CONFIGURATION:

Length (in.).....28  
Width (in.).....17  
Height (in.).....44  
Area (sq. ft.).....3.3  
Volume (cu. ft.).....12.1  
Weight (lb.).....129

## STORAGE/SHIPPING CONFIGURATION:

Length (in.).....28  
Width (in.).....17  
Height (in.).....27  
Area (sq. ft.).....3.3  
Volume (cu. ft.).....7.4  
Weight (lb.).....129

## POWER REQUIREMENTS:

Power requirements for the AN/GYK-47(V)7 are 110/200 VAC at 50/60hz or 22-32 vdc.
